HOLLOWAY'S DREAM GARDEN

GAGE T. HOLLOWAY

The Best in Glads

Henry, Nebraska

PRICE LIST, SPRING, 1940

To Our Many Friends and Customers . . .

A sincere "thank you for the nice business the past season and all of those fine letters you have kindly written us.

While we had expected to discontinue growing glads commercially and be content with our hobby, we find this not so easy as one may presume as we would miss those appreciated letters that is our reward for pleasing you.

So again not an elaborate list you know

But prices that will permit of the top ones to grow.

Growing glads for profit is something we know little about.

But to possess the best is a delight that will make anyone shout.

While some folks like a catalogue all dressed up deluxe

With plenty of colored pictures, a lot of ballyhoo and such

We still prefer to make this up in bulbs that will grow—

The most winning spikes for next season's show.

We have grown another lot of fine bulbs the past season; still fussing along and planting by that old tradition in the most fruitful signs of the moon and "believe it or not" are constantly improving our stock. For reason of other duties, most of our bulbs are planted late. They escape the extreme heat and visitors marvel at their massive beauty. Will make little comment here on the virtue of the "Moon Sign Book," which is our guide for the planting, except that it is published by the Lewellyn publications, Ltd., and can always be purchased from us. Those who are fortunate in using this valued book will continue with its use.

The "Doubting Thomases" have not carried on any experiments and it is not to be expected that it will interest them. We were with the dubious procession for a long time. This "moon stuff" gave us a laugh, and while we continue to have a laugh, it is now on the other fellow who fails to profit in the use of these signs. Plant the same thing a day apart as the sign changes from fruitful to barren and the result will be quite convincing. Planting in a fruitful sign by no means insures success, but merely assists the same as good culture, watering etc. Almanacs are not accurate and you can be entirely wrong in their use as they fail to give the fruitful and barren signs in each of the four quarters.

Yes, in the creation of this great universe the planets had their purpose, even though contrary to the belief of the skeptics. In conformity with last season, the price of the "Moon Sign Book" is \$1.00 each, \$1.05 postpaid, and supplied with all bulb orders aggregating \$5.00 for \$.75 each, and orders of \$10.00 or over, \$.50 cents each. A new book is annually compiled giving the new dates for that year.

"SILVERY TETON"

It would be out of line with the characteristics of most fans if we failed to mention one of the best first. So it will be "Silvery Teton," of course, introduced in 1939 and our first release. As we are too slow to take notes, will quote those taken by W. L. Laughlin of Fairview Gardens, Jewett, Ohio, who had one bulb the past season: "Planted May, 1939—Bloomed August 5th, 1939. Plant growth good and healthy; color of plant, dark green; soil, sandy loam; height of spike when cut, 3 feet; 20 buds on main spike and 2 side spikes with 12 and 8 buds respectively or a total of 40 buds; spike straight as a ramrod and placement of flowers perfect." Later on made this note: "Eight open flowers in perfect condition "100 per cent better in placement of flowers and length of spike than 'Dream O' Beauty, one of its parents, and flower is larger and more beautiful. It seems to have all the beauty of the latter, plus the height and stamina of its other parent, the old 'Pythia'.

"From the notes you will gather that I liked it. I have always thought a vase of "Dream O' Beauty" was about the limit for pure beauty, but she has as you know some very bad faults: Poor placement of flowers all around the spike, short growth, etc. All this in my spike of Silvery Teton was eliminated and I still had the wonderful beauty-plus of 'Dream O' Beauty'.

"Now as to results in digging: I have the bulb and about 35 bublets of all sizes and we have had a very bad growing season. No rain at all after the first of September or before that until digging time. I thought if I got one bublet I'd be lucky."

Note:—It is unfortunate that this does not propagate well for us here and Mr. E. H. Young of Peoria, Ill., an enthusiastic admirer of this variety was prevailed on to grow the major portion of our very small stock the past season. He had virtually the same bublet increase as Mr. Laughlin which proves its ability to increase in other sections of the country.

In adherence to our policy of permitting others to tell you about Silvery Teton, I will quote Mr. A. J. Amsler of Sioux City, Iowa, who had one spike for their show the past season.

"Attention; Mr. Holloway! Congratulations, old boy. Silvery Teton carried three blue ribbons after the judges had finished picking winners. Best single spike in its class, best rose red in the entire show, best new origination. Silvery Teton created a great deal of interest having six large florets open with ten more buds showing color. Everyone considered it a great improvement in the rose red class.

Now for the price. This was introduced the past season at \$3.00 each for any size bulb (no discount), price to remain the same for three years and no bublets for sale during this period. Not more than 100 bulbs offered for sale this season. Not to exceed 5 bulbs to a customer and price remains the same in 1941. I cannot promise all large bulbs this season. You may have them while they last. If you can get as good an increase as Mr. Laughlin or Mr. Young, you have a good investment.

Relative to our General Prepaid List: Again you may deduct 25% discount on orders aggregating \$5.00 or more, mailed not later than February 1st, and 15% on orders mailed thereafter, which is equivalent to a cheaper price for the quantity buyer. 25% deposit will hold your bulbs until Spring. THESE DISCOUNTS DO NOT APPLY TO OUR WHOLESALE LIST OR SPECIALS.

To those who wish to pay transportation charges on your order: Hold your hat and be prepared for extras and overcount that will far surpass your fondest hopes!

GENERAL PREPAID LIST

Please remember discount—On items priced per 10, you may have 3 bulbs at the ten rate, providing the aggregate of such items is not less than 10c.

WORTHWHILE COLLECTION NO. 50

Prepaid (No Discount)

ALADDIN	CORAL GLOW	MYRNA
ALGONQUIN	HILDRED	OREGON ROSE
AMERICAN COMMANDER	HINDENBURG'S MEMORY	RED DIABLO
AMIGO	KING LEAR	SNOW PRINCESS
COLONIAL MAID	MARGARET BEATON	WINGS OF SONG

Here is the fifteen fine numbers you have been waiting for and not necessary to pay from \$1.00 to \$5.00 a copy. One each of the entire lot in large size bulbs for \$12.50. In medium size bulbs \$10.00. In small size bulbs \$7.50. Two bublets of each variety for \$2.00. Five bublets of each variety for \$4.50. Ten bublets of each variety \$7.50. (NO DISCOUNT). And if your order is in the mail for this entire collection of bulbs, any size, not later than January 15th, 1940, we will include free, one bulb each of Sensation, Tunia's Triumph, Winall, Oddity and Crinkle Shell, our choice of sizes, but five more favorites that are good company for this collection.

Sorry we cannot do Silver Teton in this deal, but this real beauty won too many ribbons and price has to remain the same until 1942. She just rebels when we want to put her in a collection.—Should have named her "Rebel."

Yes in this collection, you are no doubt possessing the three finest reds in existence and we're glad of it. Comment on the other items is quite unnecessary, other than they, too, have "just what it takes." Rights reserved to cancel this collection when stock is exhausted.

The Unexpected Happened—!

. . . . So this calls for another story—

Zacatey (C. G. Young), 1940 introduction at the prohibitive price of \$25.00 each for any size bulb; bublets \$2.50 each, not more than five to a customer and no apology. However, this is not in accord with our conviction last season that no variety should be introduced at a higher price than \$3.00 each. History: We acquired a handful of stock in 1938, and with no reflection on C. G., all glowing descriptions are discounted until a variety is tried and proven. We had only one large bulb which looked none too good and eventually rotted. The balance, about No. six size, failed to bloom. Gave this variety no further thought. Even the bublets were overlooked the past season and not planted until late May on our poorest ground.

Along in the summer we noticed a wonderful flower in our garden. Looked at the stake and had the greatest surprise in our "Glad" career. The stake was labeled Zacatey. A spike having the most out was cut, brought in the house and opened up. Thirteen massive ruffled florets of exquisite beauty, a velvety milk white with Cerise throat, perfect placement, extra long flower head and spike straight as an arrow. Too slow to get a picture and I neglected to count the buds. Easily the largest flower and stood out over everything else in our garden for beauty. The bloom from the small bulbs lacked the immensity and it is evident that this should be grown from large bulbs to be at its best. Are confident that this spike would have been a grand champion at any show.

We have not seen Caroline Werner Gannett, but would not expect this variety to be superior to Zacatey. Whether this will prove a consistent performer remains to be seen, but if it repeats what it has done the past season it will no doubt rank as our most valuable variety for some time to come.

We are not going to kid ourselves with the belief that any of these bulbs will be sold at this price, as we realize the sales will be exactly none. However, to the large buyers who have bulb requirements to the aggregate extent of \$50.00 net, we will include on the first ten orders only, one medium bulb of Zacatey free, or a large bulb if available.

In further mention of Amigo, Colonial Maid, Hildred, Crinkle Shell and Oddity, believe if some of the larger growers had introduced these varieties, acclaim would have been loud, universal and price in conformity. Late the past season vases of both Colonial and Hildred opened up eight to ten florets in the house. They were truly marvelous, greatly admired by our visitors and easily in the front rank in their color class. Hildred has won many times over Minuet and it takes a full vase of Colonial Maid to have a real conception of its beauty.

Watch "Amigo" take its place among the new reds. Don't forget "Oddity" or fail to have the rich unusual color of Crinkle Shell" in your garden.

A good time to get started on these splendid varieties and we invite you to look over our "let live" prices in the wholesale list.

For extra early cut flowers—Early Rose, Gladys Clegg, Goldstaub and J. S. Bach are our choice.

Thanks again for your nice letters. We are pleased to know we are not outdone by any other grower in the inclusion of extras and overcount. We appreciate the many new requests for our list and wish you every success in growing our NATIONAL FLOWER and a superior garden this season.
